

- Add a thin layer of glue to the bottom edge of each of the legs (D). Fit them into the grooves in bottom disk (A). Let dry for 5-10 minutes.
- Place a small dot of glue on the bottom of ring (B) right by each of the notches. Lower the ring into the 4 legs so it comes to rest on top of the first “step” on each leg.
- Repeat with ring (C) so that it comes to rest on the top “step” of each leg.
- Allow project to dry another 5-10 minutes.
- Stretch seed bag over the tips of the legs, catching it on the sharp points.
- Place butterflies (E) on the tabs sticking out of each leg, using wedge (F) to keep each butterfly in place.
