

Grogger Assembly Instructions

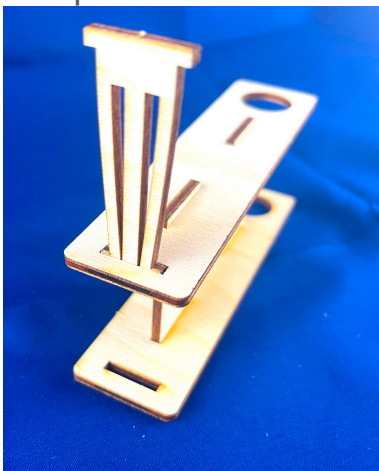

1. Carefully remove the pieces from the wood card.

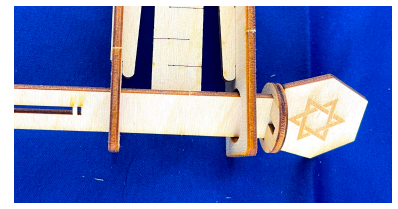

2. Assemble the body of the grogger first. Insert piece C into pieces A and B. Make sure the open end of C is pointing towards the circular hole on A/B.

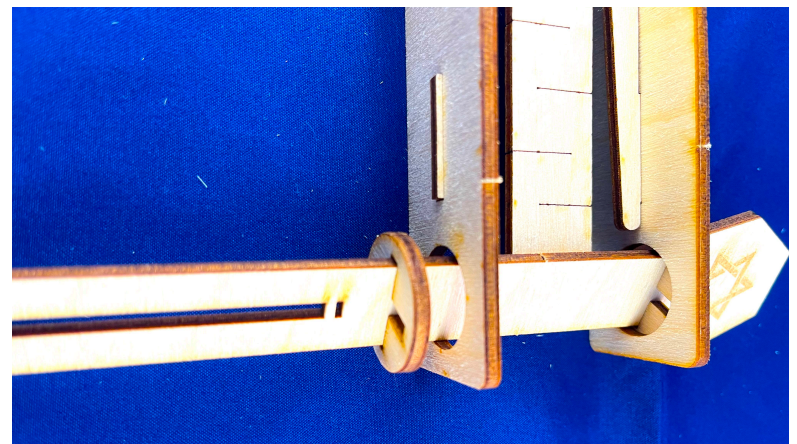

3. Squeeze the 3 prongs of piece D together, and slide that end through first piece B and then piece C. Once the prongs are through piece C, make sure to pull them apart so they are locked into place.

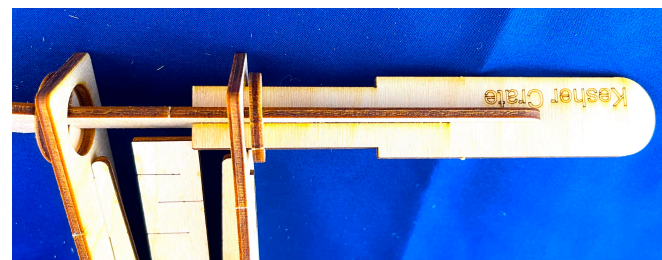

4. Slide one circle (piece E) over the longer handle piece (G). Slide the circle all the way up to the top right underneath the hexagon. Then slide the handle into the already assembled body of the grogger.

5. Slide the second circular piece (F) onto the handle.

6. Assemble the handle by sliding the second half (piece H) onto the first half. Slide piece H through both circular pieces until it is fully in place.

7. Your grogger is complete! Decorate any way you like with paints, markers, gel pens and more.
